Expedited Independent Learning Pursuit (ILP) Competence Articulations
for Project Management Professional Certification

Approved Certification for Competence:

- The Project Management Institute (PMI) Project Management Professional (PMP) Certification

Overview:

Based on a review of PMP certification materials, the School for New Learning (SNL) has approved competence credit for undergraduate students who have successfully received certifications in the area of PMP. Students who wish to apply certifications to their B.A. programs may do so by submitting copies of their certification notifications along with completed Expedited ILP assessment forms to their academic committees for approval.

Students who did not previously earn PMP certifications, but are interested in doing so, are encouraged to consider DePaul's Continuing and Professional Education (CPE): https://learning.depaul.edu/eCS/CourseGroup.aspx?group_number=144&group_version=1.

Note: Students may be approved for either the CPE class or the PMP Certification, but not both.

Documentation of SNL's review and authorization of the PMP Certificate is available from SNL's Teaching, Learning, and Assessment (TLA Committee).

Approved SNL Competence Statements:

For the PMP Certification, the two competence statements which follow are pre-authorized. For application of certification areas to alternative competences, students should first consult with their Academic Committees.
